Certificate No. R 50523922

- Certificate Holder
  Walter Kidde Portable Equipment Inc.
  1016 Corporate Park Drive
  27302 Mebane
  United States
- Certificate Number
  R 50523922
- Order Number
  168330915
- Certified Product
  Alarm Device (Carbon Monoxide Alarm)

  Model Designation:
  2030-DCR (Kidde)

- Fulfilled Standards
  EN 50291-1:2018

  The standard(s) listed here reflect the status at the time of the release of this certificate.
- Date of Issue
  2022-01-18
- Certificate Type
  TÜV-Mark Approval

  Type Approval

  The Type Approval mark of TÜV Rheinland is usually awarded for components that are not ready for use and occasionally also for finished products.

  The components are by themselves not ready for use, but intended to be incorporated into finished products.

  The tests focus on the safety of each component. The Type Approval is a voluntary test, which helps TÜV Rheinland to confirm that a product meets the relevant safety requirements.

  After type examination the manufacture of products, which have received this test mark, is regularly monitored. The certification is valid as long as the test specifications are up to date and the certificate has not been terminated, neither by the customer nor by TÜV Rheinland. The validity of the certificate expires if changes are made to the product.

  Certified products may be labelled with a test mark.
